Cookie Policy

Introduction

Our website is built using the Wix platform. To ensure proper functionality, security, and to improve your browsing experience, we use cookies and similar technologies.

What are cookies?

Cookies are small text files placed on your device (computer, tablet, or smartphone) when you visit a website. They help websites remember your settings, support site functionality, and with consent assist in gathering analytics and performance data.

What types of cookies we use

- Essential cookies: required for the basic functioning of the site (security, stability, core features, session handling).
- Non-essential cookies (only if enabled): these may include analytics or performance cookies, and possibly functionality or marketing cookies, for example if additional apps or third-party integrations are added.

What data is collected

Cookies used by Wix generally store nonidentifiable data related to your browsing such as session IDs, site performance info, or aggregated traffic data.

We do not collect personal information through cookies alone (e.g., names, email, personal identity) unless you voluntarily provide such information (e.g., via a contact form).

Consent & control

If non-essential cookies are used (analytics, marketing, etc.), we only place them with your consent via a cookie consent banner.

You can manage or disable cookie preferences at any time via your browser settings.

External reference

For full details about all cookies that may be used on a Wix-powered website, please refer to the official Wix Cookie information at:

Updates to this policy

We may update this Cookie Policy from time to time. The date of the latest update will be shown on the top page.

Contact

If you have any questions about this Cookie Policy or how cookies are used on this site, please contact us by email.
